## ACADEMIC PROJECTS

- **Title : Bite Delight**
- **Platform :** J2EE / MS.NET + ReactJs + MySQL **Duration :** 1 Month
- **Description :** Developed Bite Delight, a full-stack platform to streamline restaurant operations, user dining experiences, and admin oversight. Restaurants can manage menus and track orders, users can browse restaurants, place orders, and monitor order status, while admins oversee user and restaurant activities. Implemented secure authentication with Spring Security and JWT, built a responsive UI using ReactJS and Bootstrap, and designed a scalable backend with both Spring Boot/Node.js and MS.NET. Utilized MySQL for efficient data storage and retrieval, ensuring robust and seamless performance across platforms
